

Garden Park Apartments
Craft & Activity Workshop Guidelines

Please make sure your craft/activity is age appropriate. Activities that encourage violence are not allowed.

Please schedule enough time to set and clean up. Round tables and chairs are available.

Please bring all needed supplies with you. There are limited supplies on site; check with the Volunteer Coordinator before coming.

If your activity is messy please bring table coverings.

Introduce yourself and where you are from.

Please do not set anything on the computer lab tables.

It is best to have a completed example of the craft/activity or samples of what you will be creating.

If you have more than one activity, it is best to set them up on different tables.

It is best to give clear directions to the large group before everyone gets started.

Please stay with people doing the project and assist them as needed.

Please have participants print their names on the item so they will know which is theirs, or somehow identify ownership.

If items need time to dry et cetera, you may use a separate table for that purpose.

All participants should help in keeping areas neat and with clean up.

Please be sure to wipe down tables and floor if needed when finished.

Have fun!!

Thank you!!!
